SKILLS

Programming Languages:	Python, Java, Javascript
Libraries/Frameworks:	React, Node, Express, Angular, Django, Flask
Tools / Platforms:	Figma, GitHub
Databases:	MongoDB, MySQL

PROJECTS / OPEN-SOURCE

Login Page | Link   *React, Express , Node, Mysql*
The login page in the React Node Express MySQL app provides a secure entry point for users. Utilizing React.js, Node.js with Express.js, and MySQL, it ensures smooth authentication. Upon login, users access their personalized accounts, enabling full utilization of the application's features.

The Shoe Store | Link   *HTML,CSS, Javascript*
My shoe store project features HTML, CSS, and JavaScript elements, comprising a homepage, login interface, and a page showcasing all available shoes alongside their respective prices.

ToDo- React | Link   *React*
The Todo React website simplifies task management using React.js. It offers a user-friendly interface for creating, organizing, and tracking to-do lists. With real-time updates and customizable features, users can prioritize tasks and stay organized effectively, whether for personal goals or collaborative projects.
